

The carrot of...

Are you ready for gardening? Make the garden Spring ready. Sil and Lise can't wait to create their kitchen garden. When I asked them what we are plant this year they screamed in choir CARROTS!!!!

So we get a Carrot garden! And may all our friends come and eat carrots. And Mom? May we give carrot seeds away so the other kids also get carrots in their garden?

Nice gift to give!

Needed: clear bag with adhesive strip, carrot seeds, colored cardboard, piece of twine, stamps

Put the carrot seeds in the bag, seal and make with a perforator a hole in the top of the bag and cardboard label, in front of the text: The carrot of ... stamping and on the back text how to plant the seeds!

Of course you can do sunflower seeds in a bag with yellow cardboard label and stamped with the text: The sun!
