

# Plopper de plop

This is so much fun to make with the kids on an afternoon after school , during children's party or on weekends when the kids stay up. And a sensible snack too.

Take a white paper sandwich bag. Throw in 50 grams Popcorn in, fold the opening a couple of times to make the bag securely closed (make sharp folds!).

Then 3 minutes in the microwave! Have the children look at the microwave because before you know it you hear plopper the plop and the Popcorn is ready!

Give the popcorn when it is still warm. Possibly with sea salt.

Are you going to visit a family with children and you want to take a little present? Make some corn bags ready with a tag with instructions and your present is ready.

Guaranteed fun!
