

Gift wrapping

When a friend of one of my kids has his/her birthday I always try to make nice wraps of the presents. I usually ask my kids what the interests, hobbies or sport are from their friend . Then I choose a theme that I will use when wrapping. I buy a beautiful card, looking for images which I print out or use small accessories. And then I start wrapping.

For example a giftwrapping for a girl who loves horses!

I always have a set of white paper bags. Let your child make a beautiful drawing on the bag and put your gift in!

Do you have more gifts you can put them in a box that you packed as airmail! Last Birthday party of Sil, he got this airmail box.
