

# Easter!

In the weeks before Easter we always get to work to have fun crafting. This time a tower of lampshades and for the kids a bunny garland, embroidery and stamp.

The lampshades project is actually very simple. Collect old lampshades, make them bare and wrap them with different colored wool. Make a tower by placing them with Tyrap to unite them and decorate with ribbon, lace and small accessories. Now with Easter accessories but also think about decorating with birthdays, Autumn, Christmas etc.

I've done the project with 3 girlfriends and each in its own style! This example is in retro style

## Easter bunny garland

I bought felt bunny egg holders. Make holes through the ears and with wool and needle lace skirt together. Cute as Easter decoration in the nursery.

## Easter bunny embroidery card

It's nice to send a Easter card. Make an Easter Bunny embroidery card. On the internet you can find plenty of templates of Easter Bunnies. Print a nice one and mark on carton. Make holes with a lancing device on the line drawing and the card is ready.

## Bunny stamp

Copy the template that you used for the embroidery card smaller. Mark on a large potato cut in half. Cut out the Easter Bunny and your potato stamp is ready.
