

School crafts!

In a school year the kids collect many crafts, birthday cards, notebooks and drawings.

At the start of the school year I have made 2 boxes covered with adhesive plastic and a piece of cardboard with a name tag.

Every week I collect the best drawings and schoolworks which are worth keeping and I put them in the box and everything is tidy.

Write to the inside of the box which school years in the box. When the box is full, create a new one.

You can also decorate the boxes with photos and drawings. Or with white paper and let the kids draw on it.
