

## Snow jar

We all long for spring. Longer light, as the sun shines you feel some heat, the young animals, Easter. It's all coming. But for a little winter feeling to hold we make a snow globe with a new look. The snow jar!

What you need:

- figurine
- jar
- water
- glitter
- glass glue
- glaskit transparent

Paste the figurine with glass glue in the jar. Turn after gluing the jar for a window to let the adhesive harden. Is the figurine securely then pour the water and glitter in the pot. On the edge of the opening of the jar lubricating your Glaskit. Then shut the lid and let harden overnight. Check just above the sink or the jar is watertight. Will there be water then repeat kitten until the jar is completely waterproof.

Also nice to have a few snow pots in the window!
